LANGUAGES

Primary language: Spanish
Learned language: English. TOEFL IBT 95 points. April 14 2012

SKILLS

I have a special domain on developing enterprise web applications based on technologies such as HTML5, JavaScript, JQuery, Mootools, ActionScript, PHP and different databases. I also have experience developing iOS and Android applications and working with SAP Business Objects on planning, reporting, query and analysis and enterprise information management.

I feel comfortable working on any operating system because I have been working with several of these in a regular basis the last few years: OSX, Linux, Windows, iOS.

Some of the software IDEs and suites I usually work with are:
Komodo Edit, Xcode, Eclipse, Flash Builder Premium, Adobe CS5, Microsoft Office, Apple iWork.
