STRENGTHS

- Strong background in programming languages, with more than 6 years of experience.
- Cisco Certified Network Associate (CCNA) with professional experience in LAN configuration and maintainance.
- Good knowledge on IEEE 802.11 standards. B.Sc. thesis based on IEEE 802.11aa.
- Experience in mobile application developing.

WEAKNESSES

- Lack of strong background on advanced mathematics.
- Hardware architecture.
- Low-level programming languages.

OPPORTUNITIES

- Network programming.
- Network designing, architecture and security solutions.
- IPv6 solutions, especially for wireless and mobile networks.
- Handover techniques for wireless and mobile networks.

THREATS

- Advanced mathematics.
- Hardware design.
